ABSTRACT

The purpose of this study is to explore the relations between leisure motivation, leisure involvement and leisure psychological commitment of flute ensemble members. By using Snowball sampling and quota sampling statistical methods participants (elementary and junior high school students) of official musical contests held in five cities of northern Taiwan including Yilan County, Keelung City, Taipei City, New Taipei City and Taoyuan County in 2011, amateur flute ensembles and flute ensembles composed by teachers. 736 of 847 questionnaires were returned. The questionnaires information was examined by Descriptive statistic, Reliability test, one-way ANOVA, Pearson correlation and stepwise multiple regression. The empirical result revealed flute ensemble members mainly composed by female, students and teachers, and usually paid for tuition. The results indicated as the following: 1. There was significant difference in leisure motivation while the background features of flute ensemble members are different. 2. There was significant difference in leisure involvement while the background features of flute ensemble members are different. 3. There was significant difference in leisure psychological commitment while the background features of flute ensemble members are different. 4. There was a positive relationship between leisure motivation and leisure involvement of flute ensemble members. 5. There was positive relation between leisure motivation and leisure psychological commitment of flute ensemble members. 6. There was positive relation between leisure involvement and leisure psychological commitment of flute ensemble members. 7. The correlation between leisure motivation and leisure involvement of flute ensemble members had significant predicting power of leisure psychological commitment. Within the research results, we discovered the leisure psychological commitment of flute ensemble members was predictable by both the leisure motivation and leisure involvement. Finally, according to the findings, comprehensive discussion and recommendation were offered to flute ensemble directors, educational institutions and future researchers.

Keywords : Leisure motivation、Leisure involvement、Leisure psychological commitment
