ABSTRACT

Good administrative efficiency brings up good teaching quality. Computerization of administrative affairs of schools is the essential work of promoting administrative efficiency. There is no exception that primary school adopt it. It is the important work of the school that the property is managed. Though there are "The Property Administrative System of The Counties and Cities" offered free by the auditing department of the Executive Yuan in the elementary school, but the design of this system lacks the functions of the participative management, besides administrative staff, other relevant personnel with business have no way of participating in, it is unable to bring information to go shares, to promote the purpose of efficiency, and that become one of business personnel's pressure sources instead. This research probes into the meaning of the participative management, state theoretical foundation, application, way, function, and expound the necessity of introducing the participative management into property management systems. Then gather together the demand for exactly participating in management by way of focus group's meeting, analyse and channel into the way to participate in management, then carry on systematic function, program directory, the designs of the database and operation interface separately, and with easy to obtain and use extensive PHP language and MySQL database system, trying to make one property management systems to introduce the participative management into. Show every main function and characteristic of the property management system of this research finally, assess and compare the system developed with this research and "The Property Administrative System of The Counties and Cities", whether accord with the spirit of the participative management. Summarize the systematic characteristic developed by this research finally, it can really achieve the goal of participating in management, propose the future research direction of the property management system.

Keywords: property management; (the property administrative system of the counties and cities; the participative management
