ABSTRACT

Taiwan is before and after lifting a curfew 1987, because politics, society, economy, etc. of various fields to become more and more democratization, pluralism, liberalization, the place or the folk independent consciousness resume gradually, such different fields as politics, society and economy, etc. have already had suitable achievements, January of 90 years (2001) for the improvement which adds the national income with also constant level, domestic Yu Min Guo Implement integrally it for week after stopping for two days, the changes of the transition, living type attitude, life style thereupon too of compatriot's social values, the cost and time which are participated in the recreation activity also increase with the sun hurriedly, it is important that the overall construction of recreation industry and living environment also shows. Foreign scholar Godbey (1994) Think 'recreation' is a very important part, and happy to individual and the speech has obvious benefitting in the modern's life. Because people mood in life, work nervous and easy to lead to the fact psychological pressure. So, most persons expect that there can be more recreation environments and recreation activities in life, to express the step of solving working pressure, adjusting life, use to express and solve tense mood. World Economic Forum (WEF) Announce 'go sightseeing competitiveness report 2007', Taiwan for the first time 'go sightseeing the competitiveness index (Travel Tourism Competitiveness Index, TTCI)' mark 4.82 of comparison and assessment, while accepting and comparing and assess the country in 124, rank the 30th, the 4th in Asia.

Keywords : leisure、community reconstruction、leisure participation
